

# IMAGINE

Imagine fulfilling your passion for the environment, conservation, land management, or public policy by earning a respected degree that will help you serve our planet in one of the following professions:

- **Environmental Science & Technology or Policy & Management**
  - o Sustainability Planning & Design
  - o Risk Assessment, Hazard Mitigation & Restoration
  - o Hazardous Waste Management
  - o Fish and Wildlife Management
- **Urban Planning**
- **Community, Regional, Public Lands Planning & Management**
- **Global Environmental Management**

A college or university degree empowers industry professionals preparing for lifelong environmental careers in private and public organizations.

**If you are pursuing a degree related to environmental work, the NED FRITZ SCHOLARSHIP can help!**
